

A crown of glory—is a beautiful head of hair. An Australian lady now in London writes under date Jan. 28, 1907:

"Ayer's Hair Vigor has done my hair a world of good. Thanks to it, my hair is now thick, glossy, and soft, and when plaited is 65 inches long. Ayer's Hair Vigor ought to be used by every woman who takes pride in her appearance."

You also may have such a crown of glory if you will follow the example of this lady and use

AUTOMOBILING ON MAINLAND ROADS

"In traveling about the country one would be surprised to note the number of dealers in implements and wheeled conveyances who are either taking on an automobile agency or dispensing entirely with their old business and devoting all their time to the motor car industry. The Middle West and Southwest, as a result of my personal observation, are splendid fields for the sale of automobiles," said Alex Bey-fra, manager of publicity for the White steam car, upon his return from a recent tour. "When Southwestern territory, and particularly the state of Texas, is almost virgin territory to the automobile manufacturer and seller."

"Owing to the fact," he continued, "that many parts of the country have been backwards in road improvement,

however, many of the dealers have been backwards in road improvement, mobile proposition. Yet the automobile, in spite of the combined opposition of those interested in the horse and horse goods generally, and the prejudice that all radical newness must encounter, has 'proven its case' and is coming on with a sweep. The machine has proven that it is as much of a utility as it is a novelty and a thing of pleasure, and further, it has proven that a road that is too bad for an auto is away and beyond reasonable service for a horse. This is all clear in the minds of the public, and it is pretty well hammered in now that the dealer who does not go in, and that with dead earnest for the auto trade, will soon go out of the vehicle business."

PLAYER STABBED

NELSON TOUCHED

A novel method of downing a runner was introduced in a foot ball game at San Bernardino a few days ago. When Joe Velarde found that he could not bring Genovero Cardoni to earth by tackling he drew a dirk and stabbed him in the back. Cardoni stopped at once.

Recently Bat Nelson attended a church bazaar and was touched for \$50 before he reached the exit. Nelson says it's costly to get religion.

SPORT AND SPARKLES

Francis J. Heney, the famous graft prosecutor, while resting for a few days at Kentfield, daily enjoyed a spin over the Marin county roads in one of William Kent's big White Steamers. Mr. Kent is an enthusiastic motor car owner and owns several of these machines, and being so easy riding Mr. Heney can take trips over the Marin county roads with plenty of comfort as well as safety.

William F. Woods and family have just finished a most enjoyable trip from Oakland to Los Angeles, and report the roads in good condition. It occupied just a week, including stops at points of interest along the route. Mr. Woods and family recently arrived in San Francisco after an overland journey from Chicago in their "White Streak." They will spend the winter in Los Angeles and anticipate driving home next summer.

Mrs. Phil Lyon of Los Angeles, Cal., one of the nerviest women drivers in California, has been induced by her friends to try for the Los Angeles to Santa Ana record, and will drive a 1909 four-cylinder Oldsmobile touring car, which she has recently purchased, over the roads between the two cities in an endeavor to capture the coveted mark. This Los Angeles-Santa Ana record is one of the hard nuts of this coast, and up to a month ago was not so low. Mrs. Lyons is confident as she is one of the best woman drivers on the coast, and has already made out her schedule and gone into active training. On the trial Mrs. Lyons will drive alone and will not be accompanied by a mechanic.

Count Tsatsuma Nigagawa, who was sent to the United States by the Japanese government to learn the automobile business, and who rode in the perfect score Haynes car with Loring Wegner in the last Golden Tour, has just returned to Japan, after spending the better part of a year investigating and working in the shops of automobile factories. It is rumored that the pleasant little Jap who made so many friends on the A. A. A. tour was the representative of a syndicate of rich Japanese financiers, who propose building a medium-priced car for the Japanese.

ANOTHER PROPHET

SAN FRANCISCO, December 15.—A well known handler of pugilists who has seen both Tommy Burns and Jack Johnson box says that if Burns does not win the coming fight at Sydney inside of ten rounds he will be beaten by a knockout. But this man, who also knows the methods of fighters who care more for money than glory, declared that it would not surprise him at all if the fight was "queer." "Burns is to get \$30,000 win, lose or draw," he said, "and Johnson is to receive \$5,000. Burns could easily hand over his share of the money to Johnson to induce the negro to quit and afterward Burns could refuse to fight Johnson again and could tour the world picking up a fortune in gold. Burns is worth probably \$200,000 today, while Johnson hasn't got a nickel. You can judge for yourself whether there will be a square fight or not, but as far as I am concerned I wouldn't bet a cigar on the result." Jack (Twin) Sullivan is among those who believes that the big fight is on the level. "If it was a frameup, as some sports spall," says Sullivan, "Burns would not have offered me round trip tickets and \$500 to train him in Australia for this battle."

"Burns does not throw away his money, and if the fight was not on the square he could have secured some one in Sydney to train him for comparatively nothing."

Other ring followers say that Johnson decided upon Sydney as the battleground when they could probably have secured at least the same amount of coin to settle their differences in California. "Australia is a long way off," is the way some men put it, "and what comes off there will never be truly known in this country. The fight is a good thing to let alone."

LOCAL LITERATURE

Locally produced literature was the motif of a pleasant gathering called by the literary circle of the Kihohana Art League yesterday evening. Judge Dole presided and delivered a short address, making appreciative reference to Charles Warren Stoddard, Thomas Rain Walker and other writers of island verse.

Mrs. L. L. McCandless read poems of Judge Dole. Stoddard's "Lahaina," Walker's "Waianae," and scenic poems of Miss Anna Paris. She also, after a solo by Mrs. Allen White to the singer's own accompaniment, read "A Place of Mourning" by Ethelinda Schaefer Cystle, Walter G. Smith read his short story, "Fletcher's Christmas," and Prof. W. D. Alexander's translation of ancient Tahitian verse was produced. There was a masterly rendering of Mrs. Agnes C. Weaver's beautiful "Moonlight Sonata." Refreshments were served at the close.

PROMOTION WORK

W. A. Bowen succeeds Willard E. Brown as chairman of the Hawaii Promotion Committee, and W. H. Hoogs as a member of the body. Mr. Brown gives up for an extended trip abroad.

At its meeting yesterday the committee let two large printing contracts but decided on nothing else among several items of business on hand. J. J. Dowling's house at Waihole this island was offered by the Hawaiian Development Co., as a wayside hotel. Secretary Wood's weekly letter told of interest being taken in Hawaii at many points on the mainland and in foreign parts.

CURE OF LEPROSY POSSIBLY FOUND

At the meeting of the Board of Health held yesterday Dr. Wayson announced what comes very near to being a cure of leprosy. Dr. Wayson does not claim a complete cure, but continued treatment might show that this was so. The patient entered the Kalaheki receiving station two years ago in a very bad condition, but has so improved now that he shows absolutely no external signs of the disease.

Dr. Wayson made the request that the patient in question be allowed to return to his home. It has been necessary to amputate one of the man's arms, but an artificial limb has been given him and the improvement has been something remarkable. The question of releasing the man will be taken up with the Attorney General.

CALL FOR SUPPORT OF NATIVE SPORTS.

Honolulu, Jan. 6, 1909.

EDITOR STAR:—The affairs of the Outrigger Club are still hanging fire, and not only do not outsiders come forward in its behalf, but the original members are hanging back as if the paying of their dues of only five dollars a year were going to ruin them. Now I would like to ask, if this idea of Ford's, of reviving the Hawaiian sports and games, and which he, an utter outsider, devoted nine months of his time, and no end of hard work, is of no consequence what ever? Indeed it is considered to be of so much importance that a great many consider that he has put us all to shame; and particularly when it's known that he had no means to speak of, and spent almost his last penny in this promotion work.

Again a great many consider its of so much importance that not only should this Outrigger Club of Ford's be continued, but a rival club start composed of all Hawaiians. It is said it is well enough for the foreigners or the haole to form a club of this kind, but what is mainly wanted is a surf board and outrigger club that is purely Hawaiian.

But to do this someone must be found among the rich natives that will do what this man Ford without means has done for the haole. And I would like to ask, if there is not someone among the many rich natives, who its well known have barrels of money and any amount of leisure, that will come forward and help out their own countrymen, and do what they can towards reviving these Hawaiian sports and games among their own people?

And I would also suggest, if no one among our white race, who it's well known have even more money than the natives, will do nothing in the way of helping along this club, that the Promotion Committee be asked to do something for it. It is said some twenty thousand dollars is spent in promotion work and the work of inducing people to come here; and if such is the case one would think a little of this large amount could be spent in promoting sports that the tourist most desires to see, or the Hawaiian sports and games. In paying or spending so much money in inducing people to come here, and then doing nothing, or very little toward reviving those sports and other things which would so highly interest, entertain and please the tourist, seems to me something like a man going to great expense in building a theater and then forgetting to engage the actors or performers. Of course I may be wrong in this supposition.

But if none of these people will do anything to help the club along, it will be no great hardship for the member to pay their due, which would, perhaps, be sufficient to carry the club along, though not enough to do all that is contemplated. Many thanks are due to Mr. Herbert, Mr. McCandless and others, as well as to the ladies, and to the boys for the various ways in which they have assisted and helped the club along. It is hoped that the wall, and also the roof of the dancing hall, will soon be started, as there is danger of much of the work being destroyed if those are not done or attended to at once.

It has been suggested that a rice straw roof be placed over the dancing hall, in place of a grass roof.

Very truly,

GEO. OSBORNE.
